EDUCATION University of California, Riverside, CA, U.S.A
 Ph.D. in Economics, May 2008 (Expected)
 M.A. in Economics, March 2005

Sungkyunkwan University, Seoul, Korea
 Ph.D. Study in Economics, March 2000-June 2001
 B.A. in Economics, February 2000

DISSERTATION Title: Reappraising the Effect of Job Training on Labor Market Outcomes of women in Korea: Three essays on Theoretical and Empirical Analysis

Theoretical considerations of job training have been suggesting the sufficient reasons why it is important in the labor market. It would be more crucial for females because of the situation that females face in the labor market. Job training of females would be one of the implements compromising or moderating a labor market that tends to be in favor of male. Furthermore, through job training, females would have more opportunity of market activities and it would improve her economic well-being as well as her empowerment. However, due to the characteristics of females that involve cultural and social relationships, it might not be the case that she truly gets the benefit from job training on labor market. Access to job training would be restricted by females' social environment, such as social norms, especially in Korea. Through the three essays I investigate the true effect of job training on Korean females with the consideration of the structure of the labor market and society via Korea.

Job Market Paper : The Effect of Job Training on Labor Market Outcomes of Women in Korea: Empirical Analysis with Panel Data, 1998-2005

Analysis of Structure of Korean Female Labor/Labor Market I:
 Comparative Study of Gender Difference in Wages and Job Training

Analysis of Structure of Korean Female Labor/Labor Market II:
 Theoretical Consideration of Gender Differences in Korean Labor Market

Committee : Anil Deolalikar (Co-chairperson), David Fairris (Co-chairperson)
 Aman Ullah, Mindy Marks

**RESEARCH &
TEACHING
INTEREST**

- Labor Economics, Applied Econometrics (Policy Evaluation)
- Development (Welfare, Inequality, and Gender)
- Applied Microeconomics ▪ Educational Economics

PUBLICATION
